A History of the United States 2019-07-15 guides readers through the sometimes labyrinthine corridors of egypt s past from the mysterious predynastic kingdoms to the post modern nation state of the twenty first century

A History of the American People 2009-06-30 the creation of the united states of america is the greatest of all human adventures begins paul johnson no other national story holds such tremendous lessons for the american people themselves and for the rest of mankind in his prize winning classic johnson presents an in depth portrait of american history from the first colonial settlements to the clinton administration this is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character littered with letters diaries and recorded conversations it details the origins of their struggles for independence and nationhood their heroic efforts and sacrifices to deal with the organic sin of slavery and the

preservation of the union to its explosive economic growth and emergence as a world power johnson discusses contemporary topics such as the politics of racism education the power of the press political correctness the growth of litigation and the influence of women throughout history he sees americans as a problem solving people and the story of their country as essentially one of difficulties being overcome by intelligence and skill by faith and strength of purpose by courage and persistence looking back on its past and forward to its future the auguries are that it will not disappoint humanity sometimes controversial and always provocative a history of the american people is one author s challenging and unique interpretation of american history johnson s views of individuals events themes and issues are original critical and in the end admiring for he is above all a strong believer in the history and the destiny of the american people

The Renaissance 1953

The Cambridge Companion to the History of the Book 2015

Out of Many 2000-06 the book of revelation has served as a language arsenal in a great many of the social cultural and political conflicts in western history again and again revelation has stirred some dangerous men and women to act out their own private apocalypses above all the moral calculus of revelation the demonization of one s enemies the sanctification of revenge taking and the notion that history must end in

catastrophe can be detected in some of the worst atrocities and excesses of every age including our own for all of these reasons the rest of us ignore the book of revelation only at our impoverishment and more to the point at our own peril the mysterious author of the book of revelation or the apocalypse as the last book of the new testament is also known never considered that his sermon on the impending end times would last beyond his own life in fact he predicted that the destruction of the earth would be witnessed by his contemporaries yet revelation not only outlived its creator this vivid and violent revenge fantasy has played a significant role in the march of western civilization ever since revelation was first preached as the revealed word of jesus christ it has haunted and inspired hearers and readers alike the mark of the beast the antichrist 666 the whore of babylon armageddon and the four horsemen of the apocalypse are just a few of the images phrases and codes that have burned their way into the fabric of our culture the questions raised go straight to the heart of the human fear of death and obsession with the afterlife will we individually or collectively ride off to glory or will we drown in hellfire for all eternity as those who best manipulate this dark vision learned which side we fall on is often a matter of life or death honed into a weapon in the ongoing culture wars between states religions and citizenry revelation has significantly altered the course of history kirsch whom the washington post calls a fine

storyteller with a flair for rendering ancient tales relevant and appealing to modern audiences delivers a far ranging entertaining and shocking history of this scandalous book which was nearly cut from the new testament from the fall of the roman empire to the black death the inquisition to the protestant reformation the new world to the rise of the religious right this chronicle of the use and abuse of the book of revelation tells the tale of the unfolding of history and the hopes fears dreams and nightmares of all humanity

History of Shit 2002-02-22 a brilliant account of the politics of shit it will leave you speechless written in paris after the heady days of student revolt in may 1968 and before the devastation of the aids epidemic history of shit is emblematic of a wild and adventurous strain of 1970s theoretical writing that attempted to marry theory politics sexuality pleasure experimentation and humor radically redefining dialectical thought and post marxist politics it takes an important and irreverent position alongside the works of such postmodern thinkers as foucault deleuze guattari and lyotard laporte s eccentric style and ironic sensibility combine in an inquiry that is provocative humorous and intellectually exhilarating debunking all humanist mythology about the grandeur of civilization history of shit suggests instead that the management of human waste is crucial to our identities as modern individuals including the organization of the

city the rise of the nation state the development of capitalism and the mandate for clean and proper language far from rising above the muck laporte argues we are thoroughly mired in it particularly when we appear our most clean and hygienic laporte s style of writing is itself an attack on our desire for clean language littered with lengthy quotations and obscure allusions and adamantly refusing to follow a linear argument history of shit breaks the rules and challenges the conventions of proper academic discourse

The Newberry Library 1905 a remarkable work which will remain a document of the first rank for the historian of mechanics louis de broglie in this masterful synthesis and summation of the science of mechanics rene dugas a leading scholar and educator at the famed ecole polytechnique in paris deals with the evolution of the principles of general mechanics chronologically from their earliest roots in antiquity through the middle ages to the revolutionary developments in relativistic mechanics wave and quantum mechanics of the early 20th century the present volume is divided into five parts the first treats of the pioneers in the study of mechanics from its beginnings up to and including the sixteenth century the second section discusses the formation of classical mechanics including the tremendously creative and influential work of galileo huygens and newton the third part is devoted to the eighteenth century in which the

organization of mechanics finds its climax in the achievements of euler d alembert and lagrange the fourth part is devoted to classical mechanics after lagrange in part five the author undertakes the relativistic revolutions in quantum and wave mechanics writing with great clarity and sweep of vision m dugas follows closely the ideas of the great innovators and the texts of their writings the result is an exceptionally accurate and objective account especially thorough in its accounts of mechanics in antiquity and the middle ages and the important contributions of jordanus of nemore jean buridan albert of saxony nicole oresme leonardo da vinci and many other key figures erudite comprehensive replete with penetrating insights a history of mechanics is an unusually skillful and wide ranging study that belongs in the library of anyone interested in the history of science

American Stories 2015 this popular and comprehensive anthology presents cogent provocative articles from differing political perspectives on major issues in postwar america in addition to articles by leading historians the editors have assembled first person accounts of various issues by those who have contributed to the shaping of america s rich history including joseph mccarthy and bill clinton as well as robin morgan anne moody and phyllis schlafly for this edition chafe and sitkoff have collaborated with a new coeditor beth bailey to give this classic text a fresh outlook the

sixth edition has been extensively revised to incorporate new documents and the most up to date articles covering such recent events as the september 11 attacks with lively and enlightening introductions to each section and headnotes providing a context for the articles a history of our time helps students make sense of the past fifty years of america s sometimes tumultuous but always fascinating history

A History of History 2012 literature has not always been written in the same ways nor has it been received or read in the same ways over the course of western civilization cavallo greek palaeography u of rome la sapienza chartier ecole des hautes etudes en sciences sociales paris and a number of other international contributors address themes that highlight the transformation of reading methods and materials over the ages such as the way texts in the middle ages were often written with the voice in mind as they would have been read aloud or even sung articles explore the innovations in the physical evolution of the book as well as the growth and development of a broad based reading public

A History of Mechanics 2012-11-07 a new york times editors choice book named a most anticipated book of 2022 by literary hub and goodreads a playful history of the humble index and its outsized effect on our reading lives most of us give little thought to the back of the book it s just where you go to look things up but as dennis duncan reveals in this delightful and witty history hiding in plain sight is an unlikely realm of ambition and obsession sparring and politicking pleasure and play in the pages of the index we might find butchers to be avoided or cows that sh te fire or even catch calvin in his chamber with a nonne here for the first time is the secret world of the index an unsung but extraordinary everyday tool with an illustrious but little known past charting its curious path from the monasteries and universities of thirteenth century europe to silicon valley in the twenty first duncan uncovers how it has saved heretics from the stake kept politicians from high office and made us all into the readers we are today we follow it through german print shops and enlightenment coffee houses novelists living rooms and university laboratories encountering emperors and popes philosophers and prime ministers poets librarians and of course indexers along the way revealing its vast role in our evolving literary and intellectual culture duncan shows that for all our anxieties about the age of search we are all index rakers at heart and we have

been for eight hundred years

American Stories 2014-06-26 originally published in 1933 and written by American historian James Truslow Adams. This volume tells the story of the rise of the American nation encompassing economics, religion, social change, and politics from settlement to the Civil War. Due emphasis is given to the interconnectedness of America with Europe both in terms of cultural heritage and political and military entanglements extensive in size and scope and richly illustrated with half-tones and maps. These volumes balance a historical narrative with philosophical interpretation whilst touching on as many aspects of American life and history as possible.

American Stories 2014-02-01 an essential resource for scholars, students, and all lovers of the mountaineer state. From bloody skirmishes with Indians on the early frontier to the Logan County Mine War, the story of West Virginia is punctuated with episodes as colorful and rugged as the mountains that dominate its landscape. In this first modern comprehensive history, Otis Rice and Stephen Brown balance these episodes of mountaineer individualism against the complexities of industrial development and the growth of social institutions, analyzing the events and personalities that have shaped the state. To create this history, the authors weave together many strands from the past and present. Included among these are geological and geographical features, the prehistoric

inhabitants exploration and settlement relations with the indians the land systems and patterns of ownership the civil war and the formation of the state from the western counties of virginia the legacy of reconstruction politics and government industrial development labor problems and advances and cultural aspects such as folkways education religion and national and ethnic influences for this second edition the authors have added a new chapter bringing the original material up to date and carrying the west virginia story through the presidential election of 1992 otis k rice is professor emeritus of history and stephen w brown is professor of history at west virginia institute of technology

A History of Jasper County, Missouri, and Its People 1912

Out of Many 2000-06 this new work by gerald murnane is a fictionalised autobiography told in thirty sections each of which begins with the memory of a book that has left an image on the writer s mind the titles aren t given but the reader follows the clues recalling in the process a parade of authors the great the popular and the now forgotten the images themselves with their scenes of marital discord violence and madness or their illuminated landscapes that point to the consolations of a world beyond fiction give new intensity to murnane s habitual concern with the anxieties and aspirations of the wri

A History of Books 2012-05-01 new york times bestseller in the most ambitious one volume american history in decades award winning historian and new yorker writer jill lepore offers a magisterial account of the origins and rise of a divided nation an urgently needed reckoning with the beauty and tragedy of american history written in elegiac prose lepore s groundbreaking investigation places truth itself a devotion to facts proof and evidence at the center of the nation s history the american experiment rests on three ideas these truths jefferson called them political equality natural rights and the sovereignty of the people and it rests too on a fearless dedication to inquiry lepore argues because self government depends on it but has the nation and democracy itself delivered on that promise these truths tells this uniquely american story beginning in 1492 asking whether the course of events over more than five centuries has proven the nation s truths or belied them to answer that question lepore traces the intertwined histories of american politics law journalism and technology from the colonial town meeting to the nineteenth century party machine from talk radio to twenty first century internet polls from magna carta to the patriot act from the printing press to facebook news along the way lepore s sovereign chronicle is filled with arresting sketches of both well known and lesser known americans from a parade of presidents and a rogues gallery of political mischief makers to the intrepid leaders of protest movements

including frederick douglass the famed abolitionist orator william jennings bryan the three time presidential candidate and ultimately tragic populist pauli murray the visionary civil rights strategist and phyllis schlafly the uncredited architect of modern conservatism americans are descended from slaves and slave owners from conquerors and the conquered from immigrants and from people who have fought to end immigration a nation born in contradiction will fight forever over the meaning of its history lepore writes but engaging in that struggle by studying the past is part of the work of citizenship the past is an inheritance a gift and a burden these truths observes it can't be shirked there's nothing for it but to get to know it

American Stories 2015-06-11 a literary history of our most influential book of all time by an oxford scholar and anglican priest in our culture the bible is monolithic it is a collection of books that has been unchanged and unchallenged since the earliest days of the christian church the idea of the bible as holy scripture a non negotiable authority straight from god has prevailed in western society for some time and while it provides a firm foundation for centuries of christian teaching it denies the depth variety and richness of this fascinating text in a history of the bible john barton argues that the

bible is not a prescription to a complete fixed religious system but rather a product of a long and intriguing process which has inspired judaism and christianity but still does not describe the whole of either religion barton shows how the bible is indeed an important source of religious insight for jews and christians alike yet argues that it must be read in its historical context from its beginnings in myth and folklore to its many interpretations throughout the centuries it is a book full of narratives laws proverbs prophecies poems and letters each with their own character and origin stories barton explains how and by whom these disparate pieces were written how they were canonized and which ones weren't and how they were assembled disseminated and interpreted around the world and importantly to what effect ultimately a history of the bible argues that a thorough understanding of the history and context of its writing encourages religious communities to move away from the bible's literal wording which is impossible to determine and focus instead on the broader meanings of scripture

A History of the End of the World 2009-10-13

A History of the Bible 2020-08-04 a history of civilization in Italy from the birth of Petrarch to the death of Titian 1304 to 1576
