**RV Living** 2017-06-28 from the introduction so you're thinking about renting an rv congratulations the allure of rving is almost intoxicating the freedom of the open road the dream of seeing america from ground level and enjoying all of the majesty and quiriness you encounter along the way the excitement of

campfires roadside picnics and getting close to nature the opportunity to spend quality time with your family away from work school and the siren call of chores you need to do around the house rving holds the promise of one of your most relaxing or exciting vacations of all time but then you remember those movies you've seen such as rv starring robin williams and a certain level of doubt or fear starts to creep in will we all be able to get along together in such a small space or will i be safe on the road alone how do i choose the right rv to rent how do i find it where will we go how do i drive that thing what about the poop for a vacation that's all about life's simple pleasures the challenge of renting and planning an rv vacation can be daunting i should know i've been there the first time we rented an rv i was overwhelmed by the number of choices i had to make before we even left home what did i need to know about the many different kinds of motorhomes available for rent how would we find places to stay at

night that brought smiles instead of grimaces and i d never driven anything larger than a minivan so i began to research anything and everything i could think of about rving frankly my family accused me of being obsessed dad you re not reading about rvs again but i was determined to give my family and myself the very best rv vacation possible it must have worked because after that first rv trip in arizona even my most cynical teenage daughter said that was the best vacation ever when can we do it again what i quickly learned when planning an rv vacation was that there is a lot of information out there that was an exciting discovery on the other hand there s really no one place you can go to learn all that you need to know about planning the best rv vacation for your family your vacation and your needs my goal here is to bring it all together to give you the benefit of my research mistakes and discoveries many different kinds of rvs are available to fit a wide variety of needs for the purposes of this book

when i use the term rv i ll be referring to a self contained motorhome one vehicle that contains both living space and an engine to drive it around the other kinds of rvs are travel trailers and fifth wheels which are towed behind a pickup truck or large car most of this book will still be relevant except for some of the discussion about selecting a motorhome this book is a step by step guide to planning and enjoying the best possible rv rental vacation whether you ve rented before or you re true first timer you ll find the information you need to have the kind of vacation that leaves you and your family asking for more happy travels chapter 1 choosing the rv that s right for youchapter 2 making the dealchains brokerslocal dealersprivate individualsfeature comparison chartprice comparison chartchapter 3 defining your vacation stylechapter 4 where to stayprivate campgroundsstate and national parksboondockingchapter 5 planning your itinerarychapter 6 packingchapter 7 picking up
